Ca|Density[®]

It's what's inside that counts.

CalDensity®

CalDensity has helped transform equine by building and maintaining a strong body that improves the health of the horse. The two formulas available are designed to assist the horse while providing the maximum benefits. Choose CalDensity to see the positive effects on your horse!

Testimonial

"I have been using CalDensity extensively for over three years now. In that time, I have seen superior clinical results in healing and prevention of bone disease using this product in conjunction with my medical and surgical treatments. CalDensity is the primary product I recommend to help prevent Developmental Orthopedic Disease and to help improve bone healing and density post surgically."

- Tommy Hays, DVM

CalDensity helps prevent and repair joint and bone abnormalities including:

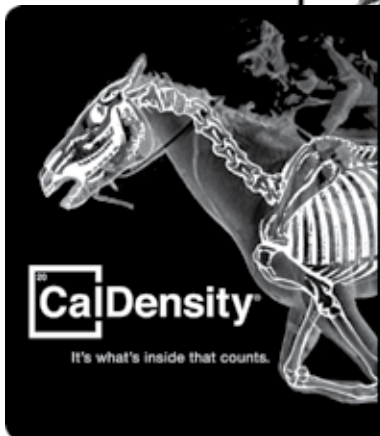

- OCD's
- Fractures
- Sesamoiditis
- Lesions
- Sore Shins
- Bucked Shins
- Temperament
- Sore Cracked Hooves
- Electrolyte Imbalance

When CalDensity was launched in July 2007, research had shown fundamental changes were found evident in as little as 60 days. Frankly, it sounded too good to be true and for many the investment seemed unreasonable. Since then, horsemen and veterinarians have been investigating the impact of CalDensity. Horsemen have evaluated everything they can observe and veterinarians have meticulously scrutinized over the x-rays, their results....

It's what's inside that counts!

Veterinarians can prove it.

Horsemen can see it.™

GUARANTEED ANALYSIS

Crude Protein, Min.	14.0%	Calcium (Ca), Min.	1.0%
Lysine, Min.	2.0%	Calcium (Ca), Max.	1.5%
Methionine, Min.	3.0%	Magnesium (Mg),	0.30%
Theonine, Min.	2.0%	Phosphorus (P), Min.	0.50%
Crude Fat, Min.	3.0%	Copper (Cu), Min.	400 ppm
Crude Fiber, Max.	15.0%	Manganese (Mn)	500 ppm
		Zinc (Zn), Min.	1800ppm

INGREDIENTS
 Stabilized Rice Bran, Flaxseed Meal, Betain, Inulin, Brewers Dried Yeast, Silicon Dioxide, Vegetable Source Hyaluronic Acid, L-Lysine, DL-Methionine, L-Theonine, Calcium Proteinates, Magnesium Proteinates, Zinc Proteinates, Manganese Proteinates, Copper Proteinates, Yucca Schottigera Plant Extract, Sodium Bentonite. Natural and artificial flavors.

FEEDING DIRECTIONS
Maintenance: Feed marks, yearlings and horses ONE-HALF scoop per day.
Full Strength: Feed ONE scoop per day.
Maximum Strength: Feed TWO scoops per day. Preferably ONE per meal. Top dress on normal grain ration or feed alone.

SCOOP ENCLOSED IS 3-OZ by NET WEIGHT and 6-OZ for LIQUID

Manufactured and Distributed by:
 Process Manager's LLC
 485 Gaeffrope Drive, Winchester, KY 40391
 1.877.744.9006 www.caldensity.com

NET WEIGHT _____ LBS

Keep out of reach of children.
 Not for human consumption.

CalDensity® Pricing

For about \$1.00/Day CalDensity maintains and supports healthy bone and joint function while dramatically reducing your operating costs.

Want A Snack®

CalDensity was originally designed for race horses and because of its success we created an expanded product line, **Want A Snack**. Want A Snack products were developed for racing canines, horses, and camels. In addition, Want A Snack products have been heralded by vets for the benefits they provide to aging pets.

WANT A SNACK™

Want A Snack® Snacks

A healthy nutritional baked snack formulated with CalDensity® to aid in the prevention of Developmental Orthopedic Disease and promote healthy mobility and joints.

Want A Snack® Mineral, Vitamin, and Joint Supplement

A Mineral, vitamin, and joint supplement incorporating CalDensity and fortified with B Vitamins and beta glucans from dried brewers yeast.

Want A Snack® Acid Neutralizer and Refresher

A mild diuretic that aids in the treatment and prevention of acidosis-dehydration and tying up syndrome, which can occur in horses, dogs, and camels after long and heavy training or exercise.

Want A Snack® Snacks Plus

Contains buffered creatine energy boost, provides prerace energy.
